ANTIFREEZE / COOLANT 50/50

HS

HEAVY DUTY HS READY MIX 50/50 PREDILUTED ANTIFREEZE/ COOLANT is an ethylene glycol based product that provides year-round protection against freeze-ups, boilovers and corrosion under extreme conditions. HS Ready Mix 50/50 Prediluted Antifreeze/Coolant is used for automotive, light-duty and heavy-duty diesel engines (vans, pick-ups, SUV's etc.). HS Ready Mix protects against freeze-ups down to -34° F. HS Ready Mix protects against boil-overs up to 265° F. A full range of inhibitors protect all cooling system metals and will not damage auto finishes or rubber parts. The Antifreeze meets ASTM D 3306 (Automotive Prediluted Antifreeze). ASTM D 4985 (Heavy-Duty Prediluted Antifreeze) and ASTM D 6210 (Heavy-Duty Prediluted, Fully-Formulated Antifreeze). It also meets or exceeds the following industry specifications as a concentrated or prediluted antifreeze/coolant. The Maintenance Council of the American Truck Association. Antifreeze also meets the non-phosphate requirements of European OEM's and non-silicate requirements of Japanese OEM's.

- ASTM D 3306, D 4985 & D 4340
- Cummins 90T8-4, 3666132
- GM 6043M, 1899M & 1825M
- Ford ESE M97B44A & ESE M97B18-C
- Mack Truck 014GS17004
- Case Corp. MS1710
- Navistar B1 (B6-008G0)
- John Deere H-5, 8650-S
- Freightliner 48-22880
- Chrysler MS 7170
- American Motors AM-4085
- SAE J1034, J1028, J814C & J1941
- TMC of ATA RP-302A*

(Pink) Ready Mix 50/50, 1 Gallon

4 PER CASE / 52 CASES PER PALLET

HS READY MIX 50/50 PREDILUTED ANTIFREEZE/ COOLANT is an ethylene glycol based product that provides year-round protection against freeze-ups, boilovers and corrosion under extreme conditions. HS Ready Mix 50/50 Prediluted Antifreeze/Coolant has an expected service life of 5 years or 150,000 miles in automobiles and other light-duty (vans, pick-ups, SUV's etc.). HS Ready Mix protects against freeze-ups down to -34° F. HS Ready Mix protects against boil-overs up to 265° F. A full range of inhibitors protect all cooling system metals and will not damage auto finishes or rubber parts. The Antifreeze meets ASTM D 3306 (Automotive Prediluted Antifreeze). ASTM D 4985 (Heavy-Duty Prediluted Antifreeze) It also meets or exceeds the following industry specifications as a concentrated or prediluted antifreeze/coolant. Antifreeze also meets the non-phosphate requirements of European OEM's and non-silicate requirements of Japanese OEM's. Meets: ASTM D3306, JIS K2234.

HS Ready Mix 50/50 is recommended for use in:

- Toyota
- Lexus
- Scion
- KIA
- Honda/Acura
- Mitsubishi
- Subaru
- Daewoo
- Hyundai
- Nissan/Infiniti
- Mazda
- Suzuki
- Daihatsu
- Isuzu

POUR-IN ADDITIVES

29.M2714H/6
Power Steering Fluid
for Honda® & Acura® with
Stop Leak & Conditioner
 Stop Squeaks by Conditioning Seals.
 Protects Against Wear & Oxidation.

12 oz. Liquid Bottle

6 PER CASE

29.M2713
Universal Power Steering Fluid
with Stop Leak

Stops leaks. Revitalizes old seals.
 Prevent wear, foam, oxidation. For GM,
 Ford, Chrysler & more.

12 oz. Liquid Bottle

12 PER CASE

29.M2732
Universal Power Steering
Fluid with Stop Leak

Stops leaks. Revitalizes old seals.
 Prevents wear, foam and oxidation.
 Mixes with GM, Ford, Chrysler & some
 Imports. Not for Honda® or Acura®.

32 oz. Liquid Bottle

12 PER CASE

29.M1512
TranSeal® Automatic
Transmission Sealer
 Stops Leaks. Conditions Seals.
 Compatible with Most ATF Fluids.

12 oz. Liquid Bottle

12 PER CASE

29.M3616
TransMedic™ Shift
Improver & Protectant
(non-synthetic)

Helps Eliminate Slippage.
 Restores Smooth Shifting.
 Reduces Wear.

12 oz. Liquid Bottle

12 PER CASE

29.C1412
10 Minute Radiator Flush
 Quickly removes grease, scum, rust, &
 scale. Requires no neutralizer. No acids.
 Compatible with all cooling systems.

11 oz. Liquid Bottle

12 PER CASE

29.MF3
Motor Flush
 Removes gums, varnishes, & sludge
 from internal parts. Releases sticky
 valves & piston rings, allowing oil to
 circulate freely to all parts of the
 motor. Treats engine in 5 minutes.

32 oz. Liquid Bottle

AEROSOL & POUR-IN ADDITIVES

29.C312

Radiator Sealer & Stop Leak

A non-metallic liquid formula. Goes to work fast to repair cooling system leaks. Forms a tough, durable seal. Holds up to extreme heat, and pressure.

11 oz. Liquid Bottle

12 PER CASE

29.M506

Windshield Washer Solvent Streak Free with Ammonia

Cleans dirt, grime, bugs. Melts windshield ice. Contains ammonia.

6 oz. Liquid Bottle

24 PER CASE

29.M705

Non-Chlorinated Brake Parts Cleaner

25% more Spray Power. Ultra-Fast Drying. No Chlorinated Solvents. Cleans & degreases brake linings, cylinders, drums rotors, clutches, CV joints.

NET WT. 14 oz. Aerosol Can

12 PER CASE

29.EB1

Engine Degreaser Original

The World's #1 Selling Engine Degreaser! Heavy duty cleaning formula is packed with powerful degreasing solvents that quickly & easily removes the toughest grease, dirt & grime. Designed for older, greasy engines.

NET WT. 15 oz. Aerosol Can

12 PER CASE

29.NM1

Electric Motor Contact Cleaner

Non-Flammable. Non-conducting cleaning solvent. For Electric motors and electronic equipment.

NET WT. 20 oz. Aerosol Can

12 PER CASE

29.M4814

Carburetor, Choke & Valve Cleaner

Powerful solvents. Removes dirt, varnish, gum, carbon deposits, & sludge. Cleans the carburetor & combustion chamber of gasoline engines.

NET WT. 12.5 oz. Aerosol Can

12 PER CASE

29.M4712

Throttle Body & Air Intake Cleaner

Cleans, protects, and lubricates butterfly/throttle valve, throttle body and idle intake control valves.

Helps improve starting & performance.

Safe for coated surfaces.

NET WT. 12 oz. Aerosol Can

12 PER CASE

PENETRATING, LUBRICATING AND SILICONE

29.L112

Penetrating Oil

A powerful blend of quick-acting, fast penetrating solvents. Anti-seize additive that loosens rusted nuts, bolts, and parts in seconds. Compare to PB Blaster®.

NET WT. 11 oz. Aerosol Can

12 PER CASE

29.L212

Lubricating Oil

Lubricates and protects all metal surfaces from rust and corrosion. Stops squeaks. Displaces moisture. Compare to WD-40®.

NET WT. 11 oz. Aerosol Can.

12 PER CASE

29.L616

White Lithium Grease

with CERFLON®

Reduces friction in all metal-to-metal & metal-to-plastic applications. Protects against rust & corrosion. Will not melt, run, or freeze.

NET WT. 11 oz. Aerosol Can

12 PER CASE

29.L711

Chain & Cable Lube

Superior lubricant formulated for chains. Dries only after entering chain links or wire cable strands. Prevents oxidation and extends component life. Contains anti-wear additives and synthetic moly grease for premium performance.

NET WT. 9 oz. Aerosol Can

12 PER CASE

29.M914

Heavy Duty Silicone Spray

Compatible with all metals, rubber, plastic & wood. High viscosity formula. Eliminates squeaks. Lubricates all kinds of household & mechanical equipment.

31.73009 3 oz. **CLEAR**

Super Clear Silicone

Replaces felt, paper, rubber, asbestos and cork gaskets. Super Silicone is clear so you can use it most anywhere. Seals windshields, lights, rubber hose connections and insulates wiring. Bonds glass, plastic, metal, leather, concrete, fabric, etc. Easy to use. Liquid Resistance: oil, transmission fluid, antifreeze, diesel fuel, lubricants, water, steam, etc.

TEMP. RESISTANCE: -100°F to +600°F
(-73°C to + 315°C)

12 PER CASE

31.44209 2 oz.

4-Minute Steel

Quick Set 4-Minute Steel Epoxy is the fastest setting STEEL epoxy product available. This industrial strength product is excellent for bonding metal to metal, and for filling defects in metal, wood and masonry. Quick Set Steel hardens and bonds by chemical reaction. Can be drilled, tapped, sanded, filed, etc.

12 PER CASE

31.27039 3 oz. **BLACK**

Automotive Black Silicone

A leak-proof gasket in a tube. Use to replace cork, paper, rubber and felt gaskets. Use to bond and seal glass, metal, vinyl, rubber, plastic, concrete, etc. Seals windshields and sun roofs.

LIQUID RESISTANCE: oil, transmission fluid, antifreeze, grease, water, steam, etc.

TEMP. RESISTANCE: -100°F to +535°F
(-73°C to + 279°C)

12 PER CASE

31.47909 25 ml

Titanium 5® Epoxy

Super strong, sets like steel. Contains titanium for strength (2500 psi). Fills gaps and hardens to a rigid metallic mass. Chemical resistant and waterproof. Use on aluminum, iron, steel, copper, brass, stainless steel and pewter.

12 PER CASE

31.65309 3 oz. **RED**

High Temp Red Silicone

SENSOR SAFE

Low Volatile. O.E.M. Approved for engines. Equipped with Oxygen Sensors. High Temp RTV Red Silicone was developed for the high-revving, hot running engines. High Temp Red Silicone goes up to + 650°F.

TEMP. RESISTANCE: -100°F to +650°F
(-73°C to + 343°C)

PRESSURE RESISTANCE:
5000 psi (352 kg/cm²)

12 PER CASE

31.46409 25 ml

5 Minute® Epoxy

When you need more working time and you need a strong crystal clear bond, the 5® Minute Epoxy System is the right choice. Strength 1500 psi. Use on metals, wood, concrete, ceramic.

12 PER CASE

31.99939 3 oz. **GREY**

Mega Grey™ Silicone

SENSOR SAFE

Low Odor. Low Volatile. Oxime.

Mega Grey is engineered for import engines but, unlike competitive products, it can be used on domestic engines as well. Low Odor. Non-corrosive. Sensor Safe-can be used on all engines. High Temperature resistance up to 650°F (343°C). Resists oil, water, antifreeze mixtures, greases and transmission fluid.

12 PER CASE

31.47809 25 ml

Plastic Welder

Simply the strongest product to use on most plastics. Made from space age methacrylate technology, Plastic Welding System sets up in 15 minutes forming a super high strength bond (3500 psi). O.E.M. approved. Excellent for bonding plastic to metal.

12 PER CASE

SILICONES AND ADHESIVES

31.80066 3 oz. **CLEAR** RTV Silicone Adhesive Sealant

Bonds, seals, caulk, and insulates. Withstands temperatures from: -70°F to 500°F (-60°C to 260°C). Resists oil, transmission fluid, grease, water and antifreeze. Provides a waterproof seal and remains flexible. For bonding and sealing glass, metal, leather, vinyl, and rubber. Repair cracked hoses. Seal tail lamps, electrical wires and windows.

12 PER CASE

31.80006 3 oz. **BLUE** RTV Silicone Instant Gasket

Resists high pressure and temperatures from -80°F to 600°F (-62°C to 315°C). For use on electrical, water pumps, valve covers, oil pans, rear end housing, transmission pans, timing chain covers and more.

12 PER CASE

31.80046 3 oz. **BLACK** RTV Silicone Instant Gasket

Forms gaskets in place instantly. Replaces cork, paper, asbestos, and felt pre-cut gaskets. Resists high pressures and temperatures from -80°F to 600°F (-62°C to 315°C). For use on oil pans, rear-end housing, electrical, wires, windshields, sunroofs, doors, lights, hose connections.

12 PER CASE

31.80726 3 oz. **RED** RTV Silicone Instant Gasket

Specially formulated for HIGH TEMPERATURE applications to 700°F (370°C). Safe on computer sensors. Resists oil, transmission fluid, grease, water and antifreeze. Dries flexible. For exhaust manifolds, timing chain covers and hi-temp applications.

12 PER CASE

31.79006 3 oz. **ALUMINIUM** RTV Silicone Instant Gasket

Replaces pre-cut gaskets by forming gaskets in place. May also be used as gaskets dressing. Resists high pressure and temperatures from -80°F to 600°F (-62°C to 315°C). For use on water pumps, valve covers, oil pans, rear end housing, transmission pans, timing chain covers thermostat housing and more.

12 PER CASE

31.N61067 (Old #31.14104) Rear View Mirror Glue

Rear View Mirror Adhesive is formulated to be strong and quick, enabling you to have your rear view mirror reattached in minutes. Quickly adheres glass to metal, glass to glass and metal to metal.

12 PER CASE

31.27106 .20 oz. **RED** Permanent Thread Lock

Permanent strength red anaerobic thread locker. For locking and sealing frame bolts, nuts, freeze plugs, wheel studs, cylinder block and rocker arm studs and more. Resistant to gasoline, diesel, antifreeze, transmission fluid and oil. Resist temperatures from -65°F to 300°F (-54°C to 150°C).

12 PER CASE

31.64605 2 oz. Quick Cold Weld Compound

Fully cures in 4 minutes to resist temperatures up 300°F (150°C). Can be drilled, tapped, machined, filed, or sanded. Resistant to gasoline, diesel fuel, water and antifreeze. For repairing cracks transmission and casings, manifolds, radiator seams, defects and keyways.

12 PER CASE

31.SGM2 2 grams Super Glue

Original formula forms the strongest bonds in tight joints between clean breaks or on smooth surfaces. Best used with non-porous materials.

12 PER CASE

31.15212 1 oz. Quick Setting Metal Epoxy

The fastest setting steel epoxy product available. Industrial strength product excellent for bonding metal to metal and filling defects in metal, wood, and masonry. Can be drilled, tapped, sanded, filed. Syringe dispenser for easy application.

12 PER CASE

WELD AND ADHESIVES

31.8265-S
J-B Weld™ 2 oz.

Bonds to iron, steel, copper, aluminum, brass, bronze, pewter, porcelain, ceramic, marble, glass, concrete, fiberglass, wood, some plastics. Sets 4-6 hours. Cures 16-24 hours. Waterproof; petroleum, chemical, and acid resistant. Drill, sand, or paint. Non-Toxic.

Resistant to 600°F.

6 PER CASE

31.8276
Kwik Weld™ 2 oz.

Sets in 6 minutes. Cures in 4-6 hours. For iron, steel, copper, aluminum, brass, bronze, pewter, porcelain, ceramic, marble, glass, concrete, fiberglass, wood, plastics, and other clean, dry surfaces. Non-Toxic. Resistant 300°F. Waterproof; chemical resistant.

Drill, sand, file, machine, or paint.

6 PER CASE

31.8272
Marine Weld 2 oz.

Strong, lasting repairs for bonding aluminum, metal, composites, fiberglass and others. Sets in 4-6 hours. Cures in 15-24 hours. Can be shaped, tapped, filed, sanded, drilled. Tensile strength: 3,960 PSI.

6 PER CASE

31.8267-S
Steel Stik™ 2 oz.

Plugs holes and make permanent repairs on wet and dry surfaces. Cures in water or gasoline! Cures in 2-30 minutes. Can be drilled, sanded, filed, tapped, machined, and painted. Requires no tools.

6 PER CASE

31.8277
Water Weld™ 2 oz.

Plugs holes, makes permanent repairs in moisture or underwater. Repairs leaking fuel tanks. Cures in 20-30 minutes. Can be drilled, sanded, filed, machined, or painted. Non-Toxic. Approved by National Sanitation Foundation for potable water.

Littelfuse patented high current fuse introduced in 1997 designed to replace the MAXI fuse and cartridge style fuses. Currently OEM on many new domestic and Japanese models. Smaller space saving footprint is being designed in by many OEM's. Patented technology provides both increased time delay and low voltage drop. Features ANSI standard OCR-A font for visual inspection systems, double spring-beam box terminal and unique secondary locking feature holds terminal firmly in place.

5 INNER PACK / 100 MASTER PACK

Patented and introduced in 1989 by Littelfuse to meet the OEM need to protect a greater number of circuits without utilizing more space. Features silver plated blades and Littelfuse designed industry standard color coding to indicate amp rating.

MAXI Fuses are primarily used for under hood applications and are produced with a high temperature polymer and silver plated blades. They replace the commonly used fusible wire or fusible link to protect a high current segment or system of the wiring harness. Features Littelfuse designed industry standard color coding to indicate amp rating.

WHY BUY

HS PERFORMANCE WINDOW FILMS

- It is manufactured by the largest manufacturer of window film in the world.
- The quality of the polyester is the clearest and most uncontaminated that exists.
- The color or dye of the film is not on the adhesive. The color is the actual polyester.
- Dyed polyester maintains the stability of the color much longer than dyed adhesive.
- Dyed adhesive runs, smears & dis-coloring when applying. Dyed polyester will not.
- **HS Performance Films** contains UV absorbers in the adhesive and the polyester which prolong the color stability & add longer life.
- "A Grade" **HS Performance Films** maintains consistency in color, adhesives, UV protection, lengths & sizes as opposed to "seconds film material" or lesser quality films.
- Our large supply of window film in stock allows quick shipping within 72 hours.
- Quality backed up by the manufacturer. ISO 9001.
- **HS Performance Films** contains the most durable scratch resistant coating in the market.

HS PERFORMANCE FILMS HAVE BEEN TESTED AND CONFORM TO THE FOLLOWING INTERNATIONALLY RECOGNIZED STANDARDS:

PERSONAL SAFETY GLAZING

ANSI Z97.1
CPSC 16 CFR 1201
BS 6206
JIS A5759
GB 9962-88

WINDBORN DEBRIS PROTECTION
Dade County PA 201-94/pa 202-94

BURGLARY RESISTANCE

DIN 52290 Part 4/Type A1

BLAST HAZARD MITIGATION

GSA (Glazing Systems Subject to Air-blast Loadings)

PHYSICAL TESTING

ASTM D 1929 (Self-Ignition Temperature)

GOOD

Standard "A" Grade Dyed Film (1mil) Scratch-Resistant

Reduced-cost constructions of the most popular colors and visible light transmissions for dyed polyester automotive films. All films are scratch-resistant (SR) and contain UV absorbers in the mounting adhesive and polyester for excellent color stability, longevity, and solar performance. Installer-friendly films are easily heat-formed and have PS mounting adhesive for rapid install on curved auto glass and glass with dot-matrix patterns.

WINDOW FILM

PERFORMANCE WINDOW FILMS

MADE IN THE USA

Safety / Security "A" Grade Film Scratch-Resistant

Professional grade clear films of varying thickness. These films are designed to protect people and property from flying shards of glass caused by vandalism, earthquakes, terrorist activity, explosions, etc. Film has an extra strong PS adhesive and scratch resistant coating. We only use Dupont Teijin® polyester because it is the best quality polyester for safety in the market. Large amount of adhesive on this safety film allow us to surpass American & European standards of impact, shatterproof & drop ball tests.

CLEAR SECURITY FILM (152.4 cm x 30.5 m) 60" x 100'

14.XSCLSRPS4	Clear	4 mil	89%	16%	HS

Safety / Solar Security "A" Grade Film Scratch-Resistant

Professional grade deep-dyed layer films offer the same protection as the clear security films but also provide heat and glare reduction for increasingly popular automotive and building applications. Film has extra strong, UV-Protected, PS adhesive and a scratch resistant coating. We only use Dupont Teijin® polyester because it is the best quality polyester for safety in the market. Large amount of adhesive on this safety film allow us to surpass American & European standards of impact, shatterproof & drop ball tests.

For Your Information:

Unlike moving vehicles, buildings have static windows. This means that windows are exposed to constant heat throughout the day. Therefore, it is recommended that DM (XAN) & HP (XAP) films be used on building applications. You can heat form all of our window films from EA, TI, XA, PM (XAR), DM (XAN), HP (XAP), XATT, XR, XS to the security 7 mil polyester. All professional films contain high grade professional non-recycle polyesters.

HS®
WE ARE OFFICIAL
LLUMAR DISTRIBUTORS

Note: Color is clear with a very light blue tone.

Professional "A" Grade AIR Film
Nano-Ceramic, Scratch Resistant
Non-Reflective Non-Metalized

AIR Films, by Llumar, ensure no signal interference from popular devices such as radios, GPS, key-less entry, cell phones and navigation devices. The unique technology used to produce AIR Blue makes it the most state-of-the-art automotive film today. The Film provides a proprietary non-metalized, non-conductive ceramic technology Film with maximum heat rejection, maximum ultra-violet rejection, excellent optical clarity, and scratch- and corrosion-resistant properties. AIR Films, by Llumar, dramatically reduce irreversible damage to human skin and vehicle interiors due to harmful ultraviolet (UV), visible, and infrared (IR) rays that penetrate ordinary window glass, while keeping the vehicle significantly cooler. AIR Films, by Llumar, are nano-ceramics films that, thanks to its technology, allow high heat rejection and at the same time high percentage of visible light transmission. In other words, practically clear films reject high levels of heat as dark films do. AIR Films, by Llumar, are light enough to meet visible light transmission laws for windscreens in most countries worldwide. AIR Films, by Llumar, provide the ultimate in comfort and protection as well as an elegant image. They have applications in the automotive and architectural sector. Installed AIR Films, by Llumar, help maintain temperature in interior surfaces of vehicles, offices or homes up to a maximum of 16°C (30°F) much cooler than in comparison with unprotected glass. This reduction in temperature increases the comfort but also reduces the use of air conditioners, helping to reduce costs and fuel consumption. Reflectivity does not reduce visibility at nighttime.
