# HSX3M PERFORMANCE FULL SYNTHETIC

## EXTENDS ENGINE LIFE

### Discover HSX3M —

The Next Generation Of Motor Oils, Specially Formulated To Meet The Latest **API Category** And Deliver Superior Engine Protection. Our **Full Synthetic** oils deliver peak performance, top-notch protection, and incredible fuel efficiency for modern engines, Meets **API SQ / ILSAC GF-7A** Standards.

**30.702**  
Full Synthetic Oil  
SAE 0W-20  
API SQ / ILSAC GF-7A

**30.752**  
Full Synthetic Oil  
SAE 5W-20  
API SQ / ILSAC GF-7A

**30.753**  
Full Synthetic Oil  
SAE 5W-30  
API SQ / ILSAC GF-7A

### SYNTHETIC BLEND DIESEL ENGINE OIL

• For hardworking **Diesel Engines**, our 15W-40 Synthetic Blend packs the durability and strength professionals trust every day, Meets **API CK-4** Standards.

**30.715**  
Synthetic Blend  
SAE 15W-40  
Diesel Engine Oil  
API CK4

**MADE IN USA**

**1 us Quart (946 ml / 12 per case / 84 cases per pallet)**

## SILICONES & EPOXIES

**31.99839 3 oz. MEGA BLACK**

**Automotive Silicone**

**SENSOR SAFE**

Mega Black Silicone is a high-flex, low odor, non-corrosive, sensor/safe, moisture curing gasketing material that cures into a strong silicone rubber that maintains long lasting durability and performance to make formed-in-place gaskets. This tough, flexible silicone rubber gasket resists aging and weathering. Will not harden, shrink, or crack. Non-corrosive to steel, iron, and aluminum.

**TEMP. RESISTANCE:** -100°F to +650°F  
(-73°C to + 343°C)

**12 PER CASE**

## ANTIFREEZE / COOLANT

**29.858-4**

Antifreeze/Coolant

(Pink) Ready Mix 50/50, 1 Gallon

**4 PER CASE / 52 CASES PER PALLET**

HEAVY DUTY HS READY MIX 50/50 PREDILUTED ANTIFREEZE/ COOLANT is an ethylene glycol based product that provides year-round protection against freeze-ups, boilovers and corrosion under extreme conditions. HS Ready Mix 50/50 Prediluted Antifreeze/Coolant has an expected service life of 5 years or 150,000 miles in automobiles and other light-duty and heavy-duty vehicles (vans, pick-ups, SUV's etc.). HS Ready Mix protects against freeze-ups down to -34° F. HS Ready Mix protects against boil-overs up to 265° F. A full range of inhibitors protect all cooling system metals and will not damage auto finishes or rubber parts. The Antifreeze meets ASTM D 3306 (Automotive Prediluted Antifreeze). ASTM D 4985 (Heavy-Duty Prediluted Antifreeze) and ASTM D 6210 (Heavy-Duty Prediluted, Fully-Formulated Antifreeze). It also meets or exceeds the following industry specifications as a concentrated or prediluted antifreeze/coolant. The Maintenance Council of the American Truck Association. Antifreeze also meets the non-phosphate requirements of European OEM's and non-silicate requirements of Japanese OEM's. Meets: ASTM D3306, JIS K2234.

HS Ready Mix 50/50 is recommended for use in:

- Toyota
- Lexus
- KIA
- Honda/Acura
- Mitsubishi
- Subaru
- Daewoo
- Hyundai
- Nissan/Infiniti
- Mazda
- Suzuki
- Daihatsu
- Scion
- Isuzu

## Professional "A" Grade HS IR Nano-Ceramic, Scratch Resistant, Non-Reflective, Non-Metalized, High Heat & UV Rejection

NANO-Ceramic Films, by Herrero & Sons Corp, ensure no signal interference from popular devices such as radios, GPS, key-less entry, cell phones and navigation devices. The unique technology used to produce HS IR Nano-Ceramic makes it the most state-of-the-art automotive film today. The Film provides a proprietary non-metalized, non-conductive Nano-ceramic technology with maximum heat and ultraviolet rejection, excellent optical clarity, and scratch and corrosion-resistant properties. HS IR Nano-Ceramic, dramatically reduce irreversible damage to human skin and vehicle interiors due to harmful ultraviolet (UV), visible, and infrared (IR) rays that penetrate ordinary window glass, while keeping the vehicle significantly cooler. In other words, practically clear films reject high levels of heat as dark films do. HS IR Nano-Ceramic, are light enough to meet visible light transmission laws for windshields in most countries worldwide and provide the ultimate in comfort and protection as well as an elegant image. Installed HS IR Nano-Ceramic, help maintain temperature in interior surfaces of vehicles, offices or homes up to a maximum of 16°C (30°F) much cooler than in comparison with unprotected glass. This reduction in temperature increases the comfort but also reduces the use of air conditioners, helping to reduce energy costs and fuel consumption. Installer friendly films are easily heat-formed and have PS mounting adhesive for rapid install on curve automotive glass.

MADE IN THE USA

### Safety / Solar Security "A" Grade Film Scratch-Resistant

Professional grade deep-dyed layer films offer the same protection as the clear security films but also provide heat and glare reduction for increasingly popular automotive and building applications. Film has extra strong, UV-Protected, PS adhesive and a scratch resistant coating. We only use Dupont Teijin® polyester because it is the best quality polyester for safety in the market. Large amount of adhesive on this safety film allow us to surpass American & European standards of impact, shatterproof & drop ball tests.
